Citizenship and Visa Status

India (F1 Visa)

Education

Ph.D. Economics, The Ohio State University, 2026 (expected)

Dissertation: "Essays on Monetary Policy with Non-Linearities and Incomplete Markets"

Committee: Aubhik Khan (chair), Julia Thomas, Kyle Dempsey

M.A. Economics, The Ohio State University, 2021

M.Sc. Economics for Development, University of Oxford, 2012

B.A. (Hons) Economics, University of Delhi, Lady Shri Ram College, 2011

Teaching and Research Fields

Macroeconomics, Monetary Economics, Monetary Policy, Household Heterogeneity

Job Market Paper

"Forward Guidance in an Uncertain World"

I investigate the impact of state-contingent forward guidance in monetary policy under incomplete markets and aggregate uncertainty. I develop a novel recursive solution framework using a global solution method that enables a thorough quantitative study of forward guidance contingent on macroeconomic states – a question previously unexplored in the literature. My results reveal that state-contingent forward guidance generates substantially smaller effects on current output, consumption, and inflation than non-state-contingent guidance, which is implemented irrespective of the future state of the economy. Households facing aggregate and idiosyncratic risks have stronger precautionary savings than in the absence of aggregate uncertainty and respond even less to state-contingent policy announcements: state-contingent forward guidance leaves room for uncertainty about future rate shifts and only partially increases the predictability of future policy, thereby limiting its effectiveness. A global solution method in my work allows for a robust analysis of state-contingent forward guidance with aggregate uncertainty, unexplored in prior studies, and infeasible with methods in the literature that rely on local approximations around the steady state or on perfect foresight, making my work a significant contribution to the literature on forward guidance and, more generally, a methodological innovation allowing for the study of broader monetary policy issues in dynamic stochastic environments.

Research in Progress

"Forward Guidance with Incomplete Markets in an Ageing Economy"

I examine the transmission of forward guidance on macroeconomic aggregates using an overlapping generations (OLG) framework with incomplete markets and an aging population. I study how heterogeneous household responses across different stages of the lifecycle, with varying exposure to risks, shape aggregate outcomes when the economy experiences a demographic shock and is undergoing a demographic transition driven by population ageing. My findings suggest that middle-aged cohorts, with stronger lifecycle dissaving motives, are particularly sensitive to future interest rate cuts, leading to uneven distributional effects, creating winners and losers across age and asset-holding status. The results enable a better understanding of the distributional consequences of the central bank's communications and can inform policy announcements to improve their effectiveness.

Teaching Experience

AU25	Teaching Assistant (for Prof Aubhik Khan), Intermediate Macroeconomic Theory
SP25/SP24/AU23/SP23	Primary Independent Instructor, Intermediate Macroeconomic Theory (with calculus)
AU24/AU22	Teaching Assistant, Principles of Macroeconomics
SP22	Teaching Assistant, Intermediate Macroeconomic Theory,
AU21	Teaching Assistant, Government Finance in the American Economy Teaching Assistant, Underground Economy

Honors, Scholarships, and Fellowships

2025	RA Fellowship, Department of Economics, Ohio State University
2024	Graduate Associate Teaching Award (GATA), Department of Economics, Ohio State University
2020	Graduate Fellowship, Ohio State University
2019	Dr. R T Doshi Young Agricultural Economist Award for Best Paper Presentation, 27th Annual Conference of the Agricultural Economics Research Association, Ludhiana (India)

Professional Activities

Graduate Student Member on the Economics Advisory Board, Ohio State University, 2023-Present
Graduate Student Representative in the Diversity, Equity, and Inclusion Committee (DEIC) 2022-present

Conference and Seminar Presentations

Dec 2024	19th Annual Conference on Economic Growth and Development, Indian Statistical Institute (ISI), New Delhi, India
----------	---

Research Experience and Other Employment

Oct 2018 – Jul 2020	International Food Policy Research Institute (IFPRI), New Delhi, Research Analyst II
Dec 2017 – Jul 2018	World Bank, Consultant
Apr 2016 – Nov 2017	Indian Council for Research on International Economic Relations (ICRIER), New Delhi, Consultant
